BOTH AMENDMENTS GET MAJORITIES AT HANDS OF MORGAN COUNTY'S CITIZENS

Soldiers Exemption Leads Tax Issue the Official Count Shows

VOTE IS THE LIGHTEST THE PAST TEN YEARS

Oak Ridge for Soldiers, But Unanimous Against the Tax Issue

Morgan county voters returned heavy majorities in favor of both amendments in Monday's election, the official count by county officials Friday afternoon showed. The soldiers amendment was carried 656 to 189 in Morgan county. The amendment exempts ex-service men from the payment of poll taxes to 1923. Amendment number 2, giving permission to 42 municipalities to increase their tax rate, was carried 508 to 270.

The vote was the lightest recorded in Morgan county in the past decade. The total vote of the county on the tax amendment was no more than Albany alone polled in the consolidation election in November. Sixty seven more votes were polled on the soldiers amendment than were cast on amendment number two, many citizens apparently believing that the residents of the communities affected by the bill should decide the issue.

One precinct, Lacon, polled no votes. Oak Ridge voted for the soldiers amendment, but was unanimous against the tax issue.

The tabulated vote follows:

Continuation of Nitrate Plant is Asked by Baker

WASHINGTON, Jan. 3.—Secretary of War Newton D. Baker today requested the special committee investigating war expenditures to report favorably on continuation of the air nitrate plant at Muscle Shoals.

The secretary said \$12,000,000 would be necessary to construct a sulphuric acid plant to make ammonium sulphate instead of ammonium nitrate, which now is being used as fertilizer, but declared the former would be far superior to the latter as fertilizer.

Secretary Baker was the first of many witnesses to be examined by the committee regarding air nitrates and it is probable that the investigations will extend throughout the South. Mr. Baker explained that the additional \$12,000,000 sought included approximately \$3,000,000 for a sulphuric acid plant and the balance for working capital to market the products.

STANDING ARMY OF 200,000 IS APPROVED BY COMMITTEE

Universal Military Training is Also Recommended in the Report

(International News Service.)
WASHINGTON, Jan. 3.—Provision for a standing army of 200,000 enlisted men, universal military training, a system of national guards under state control and national supervision, and a merit system of promotion for army officers is included in the army reorganization bill proposed today by a sub-committee of the senate military affairs committee. The provisions of the bill, which will be reported from the sub-committee to the military affairs committee next week, provides proper garisons for our overseas possessions, a small but efficient home force available for minor military emergencies, a universal military training establishment, including the required number of trained men and officers to conduct the annual training.

The plan outlined in the sub-committee bill is practically as recommended by Gen. Pershing and the American Legion. The charter members of the new citizen's army will be those who fought in the world war. The question of service in the universal training unit or the national guard will be elective.

PATTERSON LEAVES TUESDAY FOR MEET OF DEMOCRATS AT CAPITAL OF NATION

Is Non-Committal on Place of Holding the Democratic National Convention.

DENIES IS CANDIDATE FOR UTILITIES BODY Will Not Run for Place on the Alabama Public Service Commission.

A. G. Patterson, Democratic national committeeman from Alabama, will leave Tuesday for Washington to attend a meeting of the National Democratic committee, which will be featured by a banquet on the night of January 8, the anniversary of Jackson's birthday.

One of the most important questions to come before the committee will be the selection of a place of holding the Democratic national convention. Mr. Patterson stated today he had not committed himself to any city and will not reach a decision until the claims of the several entrants have been heard. The convention is sought by St. Louis, Baltimore, Chicago and a number of other municipalities. The committee also will nominate the minor officials for the convention, the nomination of Chairman being left open to the convention.

An editorial published in the Colbert County Reporter, declaring Mr. Patterson is a possible candidate for a place on the Alabama Public Service commission, drew from him a denial that he had considered making the race.

"I have about as big a job as I can take care of now," he said, "as a member of the state highway commission, which will require several days a month of my time. The position carries no emolument whatever, so I do not feel I could give more time from my personal business."

OFFICER GOES TO AID OF MEN WHOSE CAR WRECKED; IS SHOT AND MAY DIE

(International News Service.)

CHICAGO, Jan. 3.—Shot twice by one of two men whom he had aided when their automobile was wrecked. Patrolman John J. McNamee is not expected to live today.

When the officer saw an automobile turn turtle in Washington Park he and Wm. Deane, a citizen, went to the aid of the motorist. One of the men was apparently seriously injured. Placing the injured man in Deane's auto, they started for a hospital. While the machine was speeding to the hospital, the injured man came too and placing a revolver against McNamee's chest fired twice. His companion at the same time hurled Deane from the car and taking the wheel speeded up the car. McNamee was thrown from the machine later and was found by police called by Deane. The "injured" motorist is believed to have been fleeing the scene of a \$5,000 diamond robbery when their machine was wrecked.

Plans to combat the cost of living in the Twin Cities by the formation of thrift clubs and the sale of war savings stamps through the postoffices and banks were being made today by Z. E. Bellah of Atlanta, field representative of the Treasury Department, who arrived this morning.

After consulting with Postmaster Alexander of Albany and Crawford of Decatur, County Superintendent of Education Tidwell and others, Mr. Bellah believes that the prospects are bright in Morgan county for the 1920 sales of war-savings and thrift stamps.

"The work this year will be done through the home," said Mr. Bellah. "For years we have neglected the very important matter of teaching the child to save. This year, through a dual arrangement backed by the attorney-general and the secretary of the treasury, we expect to put on a national thrift campaign through the homes and schools. It will naturally follow that the cost of living will be reduced by systematic saving and investing in government securities."

"We expect to reach every home first by distributing letters to each child in the school to be delivered to his mother. The second week the child will receive a letter from his teacher to be delivered to his father. Then the third week will come a joint letter addressed to father and mother asking their cooperation in the thrift work. These letters will contain the full explanation of the government's work and other valuable information for the use of the home, in saving and combating the high cost of living."

"I expect this campaign to result in the organization of fully three fourths of the homes in Morgan county," said Mr. Bellah.

Postmasters Crawford and Alexander urged that all parents receiving these letters from the government, consider them carefully. The sales of war-savings stamps during 1918 were said to have been excellent in the Twin Cities, but showed a sharp decline during 1919. The sale of W. S. S. by postoffices has now been made permanent just as the sale of postage stamps and the hope was expressed that local people will invest more of their savings in this form of government securities, now that there are no more sales of Liberty loan bonds. These securities bear 4 1/2 per cent interest and are exempt from all taxes, which feature in effect makes them about equal to an 8 per cent investment.

HARVARD GRIDIRON STAR FLIRTS WITH DEATH IN BIG GAME.

(International News Service.)
CAMBRIDGE, Mass., Jan. 3.—Few among the thousands who watched the Harvard football team in action this Fall knew that Arthur ("Tubby") Clark, sterling right guard and Walter Camp's choice for the third all-American eleven, was flirting with death on every play.

It became known that the 220 pound lineman suffered an injury to his back while playing golf a year ago. One blow on the right spot would have resulted in death or paralysis for life, his physician states.

Clark did not make the trip to Pasadena, Cal., with the team. He has won an "H" in football, track and hockey. Hoping to be the first Harvard man to win an "H" in four branches of sport, Clark is giving up the trip to California that he may have the time to practice for next baseball team.

Eleven hundred dogs already have been registered in Morgan County, Circuit Court clerk James L. Draper announced today. The number is mounting daily.

Mr. Draper also announced that the state had extended the time limit for the payment of dog taxes to March 1 and after that date the payments will become delinquent and unregistered canines may be killed by officers of the law. Up to March 1, however, tax payments may be paid without additional penalty. The former delinquent date was January 1.

RIFLES AND BOMBS FOUND WHEN RAID MADE ON RADICALS IN BIG ROUND-UPS

Attorney General Palmer's Drive Against Anarchists Nets Many Arrests

IS STILL UNDER WAY IN MANY SECTIONS

Eight Hundred Warrants Issued in New York and as Many in Chicago.

(International News Service.)
WASHINGTON, Jan. 3.—Plans for a revolution backed by a military organization were uncovered in the raids on the reds last night, the department of justice announced today. A large number of rifles, bombs and bomb making materials were seized in Newark, N. J., the department announced. Evidence was also found that there had been planned the actual formation of a military organization among the reds which was to center in Newark. The 300 people arrested in Newark were characterized as the most dangerous sort by the department.

THE ROUND-UP CONTINUES (International News Service.)

CHICAGO, Jan. 3.—Government raids on the reds' headquarters in many cities throughout the middle west continued throughout the night and were still in progress today, according to reports today. A majority of those wanted by the government were taken in the first descent on the places, but many persons for whom warrants had been issued slipped through the federal dragnet, and it is these persons who are now being sought. Early reports placed the number arrested in middle western cities at 1,500. In many cities the local police co-operated with the government secret agents. In Chicago alone over 200 persons were arrested, in addition to the 300 arrested yesterday by the State of Illinois.

HELD AS COMMUNISTS (International News Service.)

NEW YORK, Jan. 3.—Two hundred and one men and women who were arrested in this city in the government's greatest drive against Red sympathizers were held by the department of justice today on the charge of being alien communists who were seeking to overthrow the U. S. government by violence. Chief Flynn, who was in charge of the officers, said that he still had about 600 warrants to be served.

Six hundred and fifty, including 50 women, were arrested in the series of spectacular raids carried out by agents of the department of justice, policemen and plain clothes detectives against the various headquarters of the communists and communist labor party in this city and vicinity. All but the 201 were released after being questioned.

678 IN NEW ENGLAND (International News Service.)

BOSTON, Jan. 3.—Six hundred and seventy eight alien reds were swept up last night and early today in New England as this district's contribution in the nation wide clean-up of agitators who sought to overthrow the government. The figures were given out at the department of justice.

STATEMENT ISSUED (International News Service.)

WASHINGTON, Jan. 3.—The department of justice issued this statement this afternoon: "The nation wide raid which was begun at 9 o'clock last night by agents of the department of justice upon communists and the communist labor party, under direct instructions from A. Mitchell Palmer, attorney general, has resulted in the arrest of more than 2,000 members of these organizations. Mr. Palmer has directed that the raid continue today. The entire force of special agents of the department of justice is engaged in the raids. In many instances local police officers co-operated. Bombs, rifles, other weapons and tons of literature were captured."

Get Morgan County Out of the Mud

VOTE FOR THE GOOD
ROADS BOND ISSUEUPROOTING RADICALISM
ON WHOLESALE SCALE

The first determined effort of the United States government to drive the radicals from our shores has just been inaugurated by Attorney General A. Mitchell Palmer, a fearless officer of the law and a man who knows from personal experience the dangers of the bomb and the imported assassin. This great drive, following closely the minor one that sent the Ark of the Soviet out on the troubled waters of the Atlantic with Alex Berkman and Emma Goldman listed among its passengers, is to eclipse anything of the kind ever attempted in this republic. Warrants for the arrest of 4,000 unshaven undesirables have been issued and are being served as rapidly as possible.

That a wholesale round-up of reds has been ordered emphasizes the spread of the menace of bolshevism in America since the rise to power of Léjine and Trotsky. These hardy soap box statesmen, not content with their triumphs in darkest Russia, where ignorance is a fallow field for the sowing of the seeds of hate, destruction and license, have become missionaries to the world, and in that new and strange role are attempting to upset the world's beliefs, wreck its institutions and establish in their stead rampant anarchy and unholy strife. It is to nip the efforts of such worthies as these in the bud, to prevent the further spread of a direful propaganda, that the federal authorities have undertaken to eradicate this pestiferous cult of the unwashed, and to drive the last open advocate of violence back to Europe.

That the reds of America are a real terror; that they are something more than pictured monsters of the imagination, is already clearly established. Literature found in their lairs—and these lairs are legion—is of a most revolutionary and incendiary type. This literature is being distributed at the rate of 500,000 copies a day, and is going into the homes of the ignorant and the unthinking. It is being sent where it will do the most harm. It is intended to break down the defenses of civilization and to substitute therefor the wild ideas of disordered brains. It was such propaganda as this that caused the armies of the Czar to crumble, though they had withstood the blows of the Kaiser's great military machine. And it is such propaganda as this, if allowed free and general distribution, that will poison the springs of public thought, even in this land of liberty.

Mr. Palmer can go as far as he likes in his campaign to rid America of the reds and find public opinion with him to the very last. Deportation, plain hanging or any other sure that he may resort to will be considered thoroughly justifiably.

ANOTHER PROBLEM
FOR THE CONGRESS

After having investigated the Mexican situation, the steel strike, the coal strike, the beef trust, the nature of the president's illness, the activities of the Bolsheviks, the high cost of living, the resignation of Dr. Garfield, the officiousness of Secretary Daniels, the bumptiousness of Mr. Burleson, the congress of the United States finds that its great work as a probing agency has just begun. It is now proposed to investigate the exact minute the armistice went into effect on the various fronts. All of this is good and well, but the overburdened tax-payer will never feel that he has had his money's worth until the law makers investigate the age of Ann and explore fully the mystery of the death of Cock Robin. Let the probes function fully.

Residences are just at present badly needed in the Twin Cities. In fact, without homes for added population, there is little chance for growth. The stork may do his full duty, and all that, but what's the use, if there's "nowhere to live."

Some Cynic has suggested that the reds would have a better outlook on life if their facial camouflage was forcibly removed by some government barber.

Andrew G. Patterson, member of the Highway commission from this district, has been mentioned as a probable candidate for president of the Alabama Public Service Commission. Should he announce Mr. Patterson would command a strong following in this part of the state as well as all others, as he is well known, being a member of the national democratic committee from Alabama. Judge Thos. W. Wert has also been spoken of as a candidate in connection with the public service body.—Colbert County Reporter.

Found When Raid

by the department agents. In Newark 25 rifles and a large number of bombs were taken. In every one of the 33 cities in which the raids were made, vast quantities of literature intended for use as propaganda among the working men of this country was taken. Both the parties affected propaganda work through newspapers, books and other methods. The communist party alone had 25 newspapers, printed in several languages, actively supporting its cause. This number was being increased weekly by papers which were formerly socialist organs going over to its support. The alien editors of most of these papers were taken by the department of justice in the raids. The attorney general ordered the raid upon the members of the communist and communist labor party after he had obtained evidence that these organizations taught and advocated the overthrow by force and violence of the government of the U. S. Only aliens were taken. The arrests were made on warrants issued by the immigration bureau of the department of labor at the request of the attorney general.

UP THE HILL

The farm's a pleasant place—
There are the beasts I love;
White calf and spotty pig,
Gay cock and gleaming dove,
A thousand golden bees—
My pride and care are these!

Yet I would slip away
Up yonder woody hill,
As up a magic stair,
Pale green and wondrous still—
Fair, when birds built in May,
Fair, now they've flown away.

For where 'neath birchen bow
Tarried, most delicate
And gay, the violets,
Now blue, now yellow—where gate
Green lilies lightly down,
Softly of May winds blown—

Now purple flowers droop
Like quaint dames listening
Beneath a gallery
Where sweet the minstrels sing,
Bria's of Michaelmas
Above them in the grass.

Where April showers come
So fair one scarce believes
That rain from cottage eaves,
White clouds stray hither and yon—
How lonely every one!
Uphill I see those clouds,
Mirthful at harvest-tide,
Bidding me clean forget
Cares in the valley that bide.
The farm is good, but still
'Tis better up the hill!
—Anne W. Young in New York Times

He is great who is what he is from
Nature, and who never reminds us of
others.—Emerson.

Success is sweet; the sweeter if long
delayed and attained through man-
ifold struggles and defeats.—Alcott.

Great souls are always loyally sub-
missive, reverent to what is over
them; only small, mean souls are oth-
erwise.—Carlyle.

In this mystery, this obscurity and
darkness lie the opportunity of all
victory and all progress. Whether it
call itself fatality, death, night, or
matter, it is the pedestal of life, of
light, of liberty and the spirit. For
it represents resistance—that is to
say, the fulcrum of all activity, the
occasion for its development and its
triumphs.—Amiel.

"Indian Summer."

According to William Henry Phye's
5,000 facts, Indian summer is the early
part of November. The name was de-
rived not from the state of weather,
but from the fact the weather being
mild and balmy the Indians used that
period to harvest their corn, and it
lasted nine days and came just before
winter set in. This season corresponds
to the days known as "St. Martin's
summer" in England and the Mediter-
ranean countries, although this season
in the mentioned countries comes in
the fall, just before our Indian summer.

AMUSEMENTS

"IN MISSOURIA," NEW WARWICK
PICTURE, FOUNDED ON FACTS

Much has been written about real-
ism on the screen, but the whole plot
of "In Missouri," the new Paramount
Aircraft picture starring Robert War-
wick, which will be shown at the
Princess theatre today, is built around
a startling incident that happened in
that state several years ago. The au-
thor, Augustus Thomas, was at that
time a reporter on a St. Louis paper.
A train robbery took place in which a
"one highwayman held up the express
messenger and stole several thou-
sands of dollars. Afterward he turned
up in a small town and was captured.
Mr. Thomas took this affair and, with

KEPT HER AWAKE

The Terrible Pains in Back and
Sides. Cardui Gave Relief.

Marksville, La.—Mrs. Alice Johnson,
of this place, writes: "For one year I
suffered with an awful misery in my back
and sides. My left side was hurting me
all the time. The misery was something
awful.

I could not do anything, not even sleep
at night. It kept me awake most of the
night... I took different medicines, but
nothing did me any good or relieved me
until I took Cardui...

I was not able to do any of my work
for one year and I got worse all the time,
was confined to my bed off and on. I got
so bad with my back that when I stooped
down I was not able to straighten up
again... I decided I would try Cardui...
By time I had taken the entire bottle
I was feeling pretty good and could
straighten up and my pains were nearly
all gone.

I shall always praise Cardui. I con-
tinued taking it until I was strong and
well." If you suffer from pains due to
female complaints, Cardui may be just
what you need. Thousands of women
who once suffered in this way now praise
Cardui for their present good health.
Give it a trial. NC-133

his dramatic genius, incorporated it
into a play, along with an unusually
appealing little love story. The late
Nat Goodwin used it for several years
as a starring vehicle.

It was inevitable that a play of
such force and appeal should reach
the screen. Robert Warwick is said to
fit ideally into the role of the hero,
and Eileen Percy is a pretty leading
woman. The cast also includes Noah
Beery, Monte Blue, Gertrude Short
and Robert Cain. Hugh Ford, mas-
ter director, handled the screening of
the picture. Beulah Marie Dix, who
picturized "Secret Service" and "The
Woman Thou Gavest Me," wrote the
scenario.

"CHEER UP MABEL" AT

THE MASONIC MONDAY

"Cheer Up Mabel" will soon be here.
John G. Getz and his clever company
of Musical Comedy stars will be seen
at the Masonic theatre next Monday
in the big Winter Garden success,
"Cheer Up Mabel." This is a Musical
comedy designed for the pleasurable
bewilderment of theatre goers and
judging from the bountiful popularity
of this company elsewhere it is safe
to predict unusual success here. It
does not seem possible to crowd so
many laughs into one show as George
E. Wintz has in this instance the ac-
tion is carried on at a swift rate and
laughter is never permitted to cease.
Charming Nyra Brown is said to give
a performance of rare ability having a
fresh and engaging spontaneity that
charms every audience. John G. Getz
is said to figure very importantly in
the carrying out of the plot and to
make fun in a way that crowns him
ACE of Musical Comedy comedians.

"PARLOR, BEDROOM AND BATH"

AT MASONIC THEATRE TONIGHT

There is unusual interest in the
forthcoming production of the notable
farce comedy success "Parlor, Bed-
room and Bath" which will be pre-
sented at the Masonic theatre tonight,
direct from a solid year's run in Chi-
cago and New York. It comes to the
Masonic Theatre after an engage-
ment of more than eight months at
the Republic Theatre, New York,
where it continued well into the sum-
mer, playing to capacity audiences.
It is said to have scored more laughs
than any play on the New York stage
last season. Certainly few plays
have received such enthusiastic ap-
proval from the New York press.

DOROTHY DALTON SCORES HIT IN "HARD BOILED"

AT THE DELITE MONDAY

Dorothy Dalton forcefully demon-
strated her dramatic ability in the
Thomas H. Ince-Paramount photo-
play, "Hard Boiled," which shows at
the Masonic theatre Monday.

This charming young actress has
firmly established herself as a dra-
matic actress and proves in this lat-
est picture that she is capable of
sparkling light comedy work. Just as
she has been admired in her heavier
roles so she will be loved as Corinne
Melrose, the stranded prima donna in
the hick town of Nilesburg. She
plays the part of a girl called upon
to use her wit to extricate herself
and a benefactress from an embar-
rassing situation and she does this
with such a charm and such good
taste that we will await with anx-
ious expectation the next comedy
drama featuring this star. The story
was written by John Lynch and di-
rected by Victor Schertzinger. The
photography is exceptionally good and
the exterior locations have been so
carefully selected that they make the
production decidedly an artistic one.
The support was admirable, the work
of C. W. Mason, Billy Courtwright,
Gertrude Claire and Walter Hiers be-
ing most praiseworthy.
